

REMARKS

Claims 1-32 originally filed in this application are subject to a restriction requirement in the June 18, 2008 official action. In particular, the claims are alleged to recite two distinct inventions, *i.e.*, an input device as set forth in Group I and a dentist's or dental treatment station/work station as set forth in Group II.

Applicants hereby elect the invention of Group II, claims 13-32. As a result of this election, claims 13-32 remain pending in the application. Claims 1-12 are withdrawn from the application, without prejudice to refiling these claims.

July 17, 2008

Respectfully submitted,

By 
Andrew R. Smith
